

I and my family are XM Satellite Radio subscribers who greatly enjoy listening to the broad array of offerings of satellite radio. Its traffic and weather channels especially benefit me in my day-to-day activities. Satellite radio offers variety and quality that have not been seen anywhere else in the universe. The value I receive from satellite radio is so great, I am willing to pay for these services. I urge you to reject the National Association of Broadcasters' petition 04-160 which would limit my options. I support XM's ability to provide the kind of programming that I enjoy.
